

Complete website wireframes

The page structure, visitor journeys, and registration workflow for team review.

CYBER ASSASSIN / CLEAN SAAS / LIGHT + DARK

A shared picture before implementation.

This pack is a structural design proposal, not a live website. It includes a NOVAITION-inspired video hero, responsive layouts, all supporting pages, separate session and team forms, and the organizer handoff.

Primary objective

Increase unique DecodeXtreme registrations. Keep IEEEExtreme education and IEEE membership promotion as supporting pathways.

How to read this pack

Boxes describe content and placement. Dates and audience rules are confirmed. People, partners, closing deadline, video, music, and final challenge policies are pending.

SLTC
IEEE Student Branch

IEEE
COMPUTER
SOCIETY

Student Branch Chapter of SLTC

Prepared for sharing. Screen layouts are schematic and use neutral wireframe typography; final branding and motion are developed next.

01 / Site map & event facts

One local registration journey. Separate global competition information.

HOME

Primary registration entry; program overview, identity, timeline and trust.

Program & registration

Three session pages/forms; separate PreXtreme team form.

IEEEExtreme & membership

Global competition, eligibility, proctors, official joining guidance.

Our team & legacy

Organizers, advisors, current ambassador, past ambassadors with years.

Delegate guide

Setup, event schedule, approved local rules, scoring, appeals and support.

UTILITY: Privacy & participant communication

Linked from registration forms and footer.

CONFIRMED SCHEDULE / SRI LANKA TIME (UTC+05:30)

12 October 2026

Awareness

8:00 PM; expected finish 10:00 PM

14 October 2026

Fundamentals

8:00 PM; expected finish 10:00 PM

21 October 2026

Strategy

8:00 PM; expected finish 10:00 PM

24 October 2026

PreXtreme

Check-in 8:00 AM; coding 9:00 AM-6:00 PM

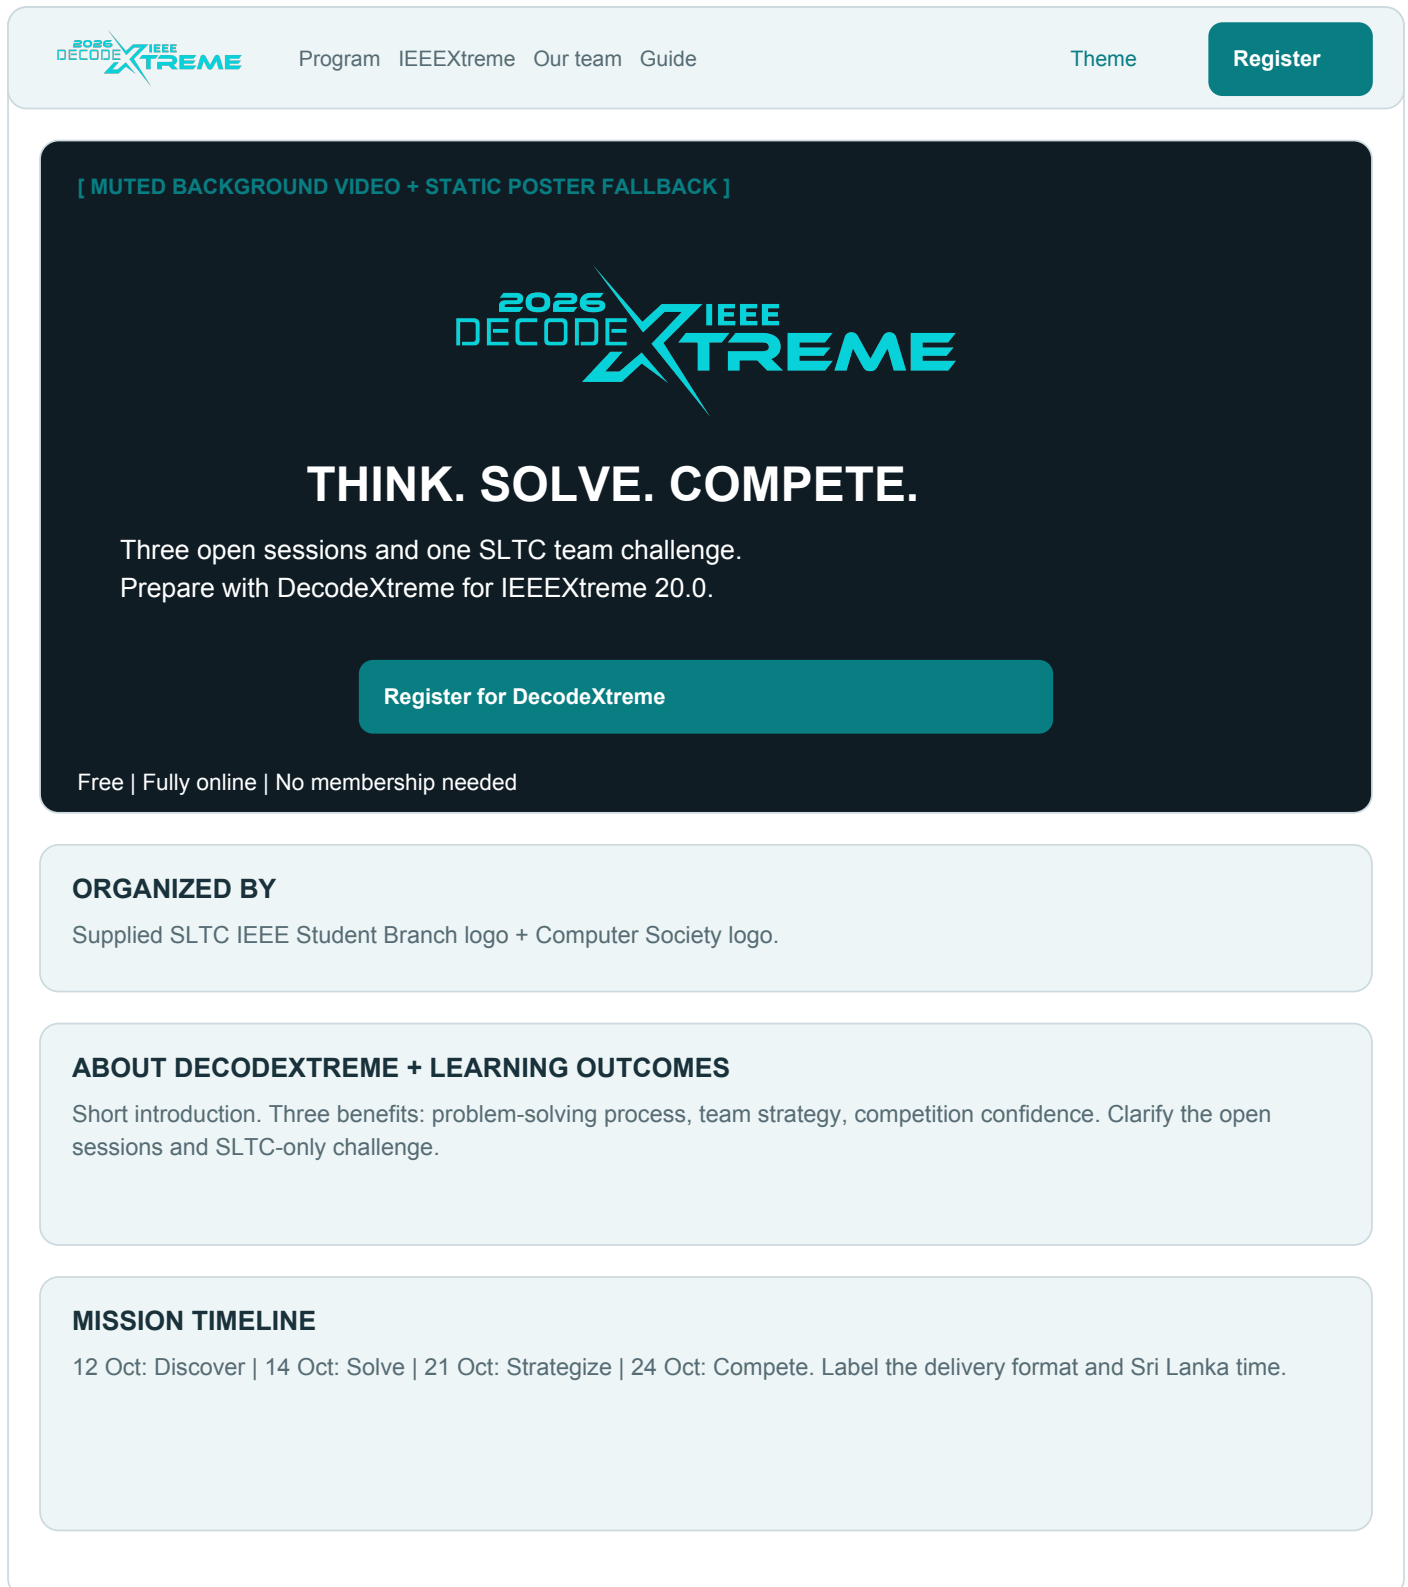

AUDIENCE & COST

Sessions open to everyone. Challenge: exactly three SLTC undergraduates per team. Free; no IEEE membership needed.

All session and challenge registrations close together. The common closing date/time has not yet been provided.

02 / Homepage - first impression

Desktop upper page. The hero is revised to the latest video-led direction.

Hero hierarchy: event identity, one clear promise, primary local registration CTA, secondary program link. No wireframe controls on the real site.

03 / Homepage - conversion & trust

Continuation of the homepage, after the overview and timeline.

[Program](#) [IEEEExtreme](#) [Our team](#) [Guide](#)Theme[Register](#)

12 OCT / SESSION 1
Awareness
8:00 PM on Zoom
Expected finish 10:00 PM
Individual registration

14 OCT / SESSION 2
Fundamentals
8:00 PM on Zoom
Expected finish 10:00 PM
Individual registration

21 OCT / SESSION 3
Strategy
8:00 PM on Zoom
Expected finish 10:00 PM
Individual registration

PREXTREME CHALLENGE / TEAM REGISTRATION
24 Oct; 8:00 AM check-in. Coding 9:00 AM-6:00 PM on HackerRank. Exactly three SLTC undergraduates. Captain registers all members.

SPEAKERS & PROCTORS PREVIEW
Approved portraits, names, roles; distinguish speakers from proctors.

IEEEEXTREME + MEMBERSHIP PREVIEW
Explain the global competition separately; link to its dedicated page.

PARTNERS & SPONSORS
Approved logos, grouped by confirmed partnership roles.

FAQ + CONTACT + FINAL REGISTRATION CTA
Answers remove uncertainty. Delegate help, email/phone, and registration.

FOOTER: Identity | links | socials | privacy | credits

People, sponsors, prizes and certificates are placeholders until supplied and approved; never display invented names, counts or awards.

04 / Homepage - mobile

Single-column layouts prioritize readable content and easy registration.

MOBILE / FIRST SCREEN

Logo + Register

Theme / sound / compact navigation

MUTED VIDEO / POSTER

**THINK. SOLVE.
COMPETE. BEYOND.**

Register for DecodeXtreme

ORGANIZER LOGOS

Stack safely; preserve clear space.

ABOUT + OUTCOMES

Short copy; essentials before detail.

TIMELINE

Vertical or two-column milestones.

MOBILE / PROGRAM & FOOTER

Awareness / 12 Oct

Time, outcome, speaker, registration button.

Fundamentals / 14 Oct

Time, outcome, speaker, registration button.

Strategy / 21 Oct

Time, outcome, speaker, registration button.

CHALLENGE

Team CTA; eligibility and nine-hour schedule.

PEOPLE / GLOBAL / PARTNERS

Concise teasers linked to supporting pages.

FAQ / CONTACT / FOOTER

No hover-only controls; theme and sound reachable.

On mobile, use a static poster for reduced motion or limited playback conditions. Keep the registration button visible without a forced scroll gesture.

05 / Program & registration

A choice page with three separate session registration routes and one challenge route.

 [Program](#) [IEEEExtreme](#) [Our team](#) [Guide](#) [Theme](#) [Register](#)

CHOOSE YOUR PATH

Sessions welcome everyone. The challenge welcomes SLTC undergraduates. One common deadline; date/time pending.

12 OCT / Awareness

Competition introduction and participation pathway.
Zoom; 8:00 PM, expected finish 10:00 PM. Speaker profile + session-specific CTA.

14 OCT / Programming Fundamentals

Problem decomposition, algorithms, coding, testing and debugging.
Zoom; 8:00 PM, expected finish 10:00 PM. Speaker profile + session-specific CTA.

21 OCT / Advanced Strategy

Teamwork, time management, problem triage and contest execution.
Zoom; 8:00 PM, expected finish 10:00 PM. Speaker profile + session-specific CTA.

TEAM CHALLENGE / 24 OCT

HackerRank; check-in 8:00 AM; coding 9:00 AM-6:00 PM. Three SLTC undergraduates. Read delegate rules, then register a complete team.

PREPARATION & SESSION RESOURCES

Zoom access, working connection, coding setup for technical sessions; approved slides, recordings and practice resources when available.

Choosing a session opens its own form. Show selected event details throughout the form, review, and confirmation screens.

06 / IEEEExtreme & membership

Dedicated education page. This page does not compete with the main local registration CTA.

Program IEEEExtreme Our team Guide

GLOBAL COMPETITION

What is IEEEExtreme?

A separate 24-hour programming competition. DecodeXtreme prepares you; it does not enroll you.

HOW IT WORKS

Official eligibility, team setup, membership, proctor arrangement, separate competition registration. Verify all edition-specific dates and rules before publication.

WHY JOIN IEEE?

Student community, professional connections, learning, mentoring and leadership opportunities. Use verified benefits and official joining links.

MEMBERSHIP GUIDANCE

Official join link + local help contact. State clearly: no IEEE membership is needed for DecodeXtreme.

INTRODUCING OUR PROCTORS

Approved name, portrait, affiliation and role. Explain responsibilities and the local support route. No private contact details unless approved for publication.

RETURN TO THE PREPARATION JOURNEY

Primary local CTA: Register for DecodeXtreme. Secondary external CTA: Official IEEEExtreme information/registration.

Do not imply global entry is free of membership requirements simply because local DecodeXtreme participation is free and open.

07 / Our team & legacy

Recognize current contributors and previous ambassadors without crowding the homepage.

[Program](#) [IEEEExtreme](#) [Our team](#) [Guide](#)[Theme](#)[Register](#)

OUR TEAM & LEGACY

Introduction to the organizers, supporting advisors, and ambassador history.

MAIN COORDINATOR / CURRENT AMBASSADOR + CHAIRPERSON

Approved portraits, names, titles, public profile links.

Vice chairpersons

Portrait
Name / role
Approved link

Secretary

Portrait
Name / role
Approved link

Team heads

Portrait
Name / role
Approved link

ORGANIZING COMMITTEE

Team groupings; expandable member lists on mobile. Keep long names readable.

ADVISORS & ORGANIZERS

Approved advisor names and official organizer logos, with accurate roles.

PAST AMBASSADORS / YEAR-BY-YEAR

Portrait, full name, ambassador year, short recognition statement. Separate from current committee roles.

CONTACT ROUTE

Delegate support and general organizer contact.

Names, portraits, past ambassador years and contact details will be supplied by the organizing team. No invented biographies or affiliations.

08 / Delegate guide

The local challenge policy and participant checklist. Final wording requires organizer approval.

[Program](#) [IEEEExtreme](#) [Our team](#) [Guide](#)[Theme](#)[Register](#)

PREXTREME DELEGATE GUIDE

Eligibility: SLTC undergraduates. Complete three-member teams. Online, free, no membership needed.

24 OCTOBER / EVENT-DAY SCHEDULE

8:00 AM check-in and readiness. Coding begins 9:00 AM and ends 6:00 PM. Nine hours; Sri Lanka time.

GET READY

Complete accurate team details, prepare coding environment and reliable internet, follow HackerRank account instructions, read the approved rules.

RULES / EXPANDABLE TOPICS

Eligibility and team roster
Permitted languages/resources; AI and collaboration policy
Scoring, tie-breaks and disqualification
Technical incidents, disputes and appeals
Conduct and confidentiality

TECHNICAL & DELEGATE SUPPORT

Approved access instructions, troubleshooting contact, and fair incident escalation.

RULES ACKNOWLEDGMENT + TEAM REGISTRATION

Link the final rules from the form. Keep result-audit and appeal expectations visible.

Adapt IEEEExtreme 20.0 rules to this local event; do not copy incompatible membership, duration, platform or eligibility requirements.

09 / Session registration

A separate instance of this flow is used for each of the three sessions.

1 / DETAILS	2 / REVIEW	3 / CONFIRMATION
SELECTED SESSION Title, date, time, free entry. Full name Email WhatsApp number Institution ☐ Communication and WhatsApp agreement Privacy notice link Continue to review	SELECTED SESSION Title, date, time, free entry. CHECK DETAILS Entered name, email, phone and institution. Communication choice. Event details. Edit/back available. Submit once. Preserve details if the save fails. Submit registration	SELECTED SESSION Title, date, time, free entry. SAVED Reference number, selected event, calendar link, email delivery status, and next steps. Delegate team manages WhatsApp group access. Joining instructions follow. Explore another session

VALIDATION & FAILURE STATES

Inline field errors; clear save failure; values retained for retry. Duplicate retry must not create a second booking. Show confirmation only after saving succeeds.

COUNTING REGISTRATIONS

Track each event booking separately. A person attending three sessions remains one unique participant. Email delivery failure is separate from registration save failure.

No login is proposed for participants. Final form fields and operational requirements should be confirmed before live integration.

10 / Complete-team registration

One captain registers all three SLTC undergraduate members. No teammate-finding offering.

 [Program](#) [IEEEExtreme](#) [Our team](#) [Guide](#) [Theme](#) [Register](#)

TEAM DETAILS + EVENT SUMMARY

Team name; 24 October; 8:00 AM check-in; coding 9:00 AM-6:00 PM. Free, three members, SLTC-only.

MEMBER 1 / CAPTAIN

Full name	Email address
WhatsApp number	SLTC student ID

MEMBER 2

Full name	Email address
WhatsApp number	SLTC student ID

MEMBER 3

Full name	Email address
WhatsApp number	SLTC student ID

CONSENT + RULES

Communication and WhatsApp participation agreement; privacy notice; acknowledge final challenge rules. Captain confirms the roster and member data are accurate.

[Continue to team review](#)

Review all three records before submitting.
Check SLTC eligibility through the approved process.

All three phone numbers are required. Do not publish student IDs or phone numbers on a public team list.

11 / Organizer workflow & data

A private registration register in Google Sheets, owned by the organizer Gmail account.

1**Participant chooses a session or challenge**

Selected event and audience rules remain visible.

2**Form collects details and consent**

Team captain provides all three members; session form is individual.

3**Private server validates and saves**

Credentials stay private. Prevent repeated-submission duplicates.

4**Confirmation + email status**

Reference number after saved data. Delivery status is tracked separately.

5**Delegate handling follows up**

Review roster; add participants to relevant WhatsApp groups; send instructions.

SHEET TABS / DISTINCT RECORDS

Participants

Unique person records

Session registrations

Separate event bookings

Challenge teams

Team, captain, verification status

Challenge members

All three member contacts

Summary separates unique people, session bookings and teams. HackerRank handles contest submissions/scoring; Sheets is not the contest platform.

12 / Opening, video & sound

NOVAITION-inspired identity-led hero, with controls that preserve usability.

1 / IDENTITY

Logo trace and brief mission statement.

Skip intro

2 / REVEAL

Muted video or poster establishes the atmosphere.

Skip intro

3 / ARRIVE

Headline, explanation and registration become immediately usable.

Skip intro

[MUTED BACKGROUND VIDEO + STATIC POSTER FALLBACK]

THINK. SOLVE. COMPETE.

Three open sessions and one SLTC team challenge.
Prepare with DecodeXtreme for IEEEExtreme 20.0.

[Register for DecodeXtreme](#)

Free | Fully online | No membership needed

VIDEO / NO SOUND

Muted, inline playback. Visible pause/resume control. Use a poster if autoplay fails or motion is reduced. Optimize size; do not block content.

MUSIC / OPTIONAL

Separate opt-in control. Off initially; preserve choice between pages. Visitor may mute it at any time. Track still to be supplied.

MOTION & RETURN VISITS

Short entrance, immediate skip, repeat-visit bypass, and registration links that bypass the intro. First-scroll motion subtly reveals the mission path. Simplify on mobile; respect reduced motion.

The PDF cannot play video or demonstrate blur/motion. These frames describe the intended behavior; assets and implementation are pending.

13 / Identity, typography & themes

Use the supplied event marks. Final UI type is proposed, while this PDF uses neutral wireframe type.

EVENT IDENTITY

Header, entrance, hero, footer. Preserve aspect ratio and clear space.

Student Branch Chapter of SLTC

ORGANIZER / COMPUTER SOCIETY

GLOBAL COMPETITION LOGO

Use IEEEExtreme 20.0 mark in its own preview and dedicated page, not as the primary DecodeXtreme identity.

PROPOSED WEBSITE FONT ROLES

Space Grotesk

Competitive display headlines; strong event hierarchy.

Manrope

Navigation, descriptions and forms; clean SaaS readability.

JetBrains Mono

Code accents, session numbering and small technical labels.

LIGHT

Soft white, graphite, teal accents. Frosted white navigation.

DARK

Deep charcoal, ivory, cyan accents. Smoky glass navigation.

Font references: fonts.google.com/specimen/Space+Grotesk | Manrope | JetBrains Mono

Keep logo colors intact; use suitable contrasting surfaces. Other supplied society logos appear only if their event role is confirmed.

14 / Privacy, delivery & launch

The remaining scope and a practical route from approved wireframes to a working website.

PRIVACY & PARTICIPANT COMMUNICATION PAGE

State collected data, event-management purpose, who can access it, retention arrangements and query contact. Explain WhatsApp number visibility. Link from forms and footer; avoid collecting unnecessary data.

DELIVERY SEQUENCE

1 / Review these wireframes

Confirm hierarchy, routes, forms and the revised video hero.

2 / Inspect the React template

Check structure, dependencies and fit; reuse useful parts.

3 / Build the visual system

Logos, proposed fonts, glass surfaces, light/dark themes, video and motion.

4 / Build pages & registration

Private Google Sheets integration, validation, retries and email delivery.

5 / Verify & publish

Mobile, accessibility, performance, approved content, live registration check.

ASSETS & DECISIONS STILL NEEDED

React template; background video and poster; optional music track; common closing date/time; speakers and proctor details; committee photos/names; past ambassador years; approved contacts, sponsors, prizes/certificates; owner Gmail, email sender and hosting details.

Design may proceed with honest placeholders. Final rules, working registration, approved content and required assets must be ready before public launch.
